SHAMAYEL WARSI

+91 8240142654 | Kolkata, India | smilewarsi9@gmail.com | Portfolio | LinkedIn
Technology Exploration | Web Development

OBJECTIVE

Passionate and results-driven developer with 2+ year of hands-on & working experience delivering scalable web and mobile solutions. Skilled in Java, Android, Firebase, and SQL. Proven expertise in fintech platforms, UPI integrations, KYC flows, testing, and freelance SaaS/e-commerce projects. Certified in Machine Learning, Data Analytics, and IoT to strengthen modern development approaches.

EXPERIENCE

Software Development

1. PayPoint India | IT Tester & Technical Support Engineer

May 2025 – Sep 2025 | Mumbai

- Developed DigiKhata Merchant Portal for seamless UPI, tracking, and multi-user handling.
- Built Transit Card Solution and DSA Partner Dashboard for sales oversight.
- Launched landing pages for UPI PG, P2A API, Gift Cards, Payouts, Expense Management, and Cobrand Prepaid Card.
- Improved DigiKhata Mobile App with new payment flows and transaction features.
- Reduced post-release issues through extensive manual and functional checks.
- Tested all functional and edge cases for DigiKhata Sound Box & Merchant Application ensuring reliability and performance.

Key Projects: DigiKhata UPI & Payout APIs | Transit Card Recharge | Vyapaar Merchant App & Sound Box | DSA Dashboard

2. Finder | Software Developer (Freelance)

Jul 2023 – Apr 2025 | Remote

FinderManufacturer – E-Commerce Web App

- Built from scratch using Java (backend), React, and MySQL.
- Features: Dynamic product filters, user authentication, cart, order placement, rating system, help widget.
- Result: Improved performance by **30%** with optimized queries and streamlined backend.

Finder – Sales Tracking Android App

- Developed using Java (Android), Firebase, and PDF APIs.
- Features: Role-based access, GPS attendance, real-time sales dashboard, PDF invoice generation.
- Result: Reduced manual billing hours by **75%**, enabled real-time tracking of **50+** field staff.

3. Celebal Technologies | Data Engineer (Intern)

Jun 2023 – Aug 2023 | Remote

- Created optimized SQL pipelines and Power BI dashboards for real-time sales insights.
- Improved data processing efficiency by **20%** and enabled executive decision-making through visual analytics.

SKILLS & ABILITIES

Languages: Java | JavaScript | Python
Web: HTML5 | CSS3 | JavaScript | React.js
Mobile: Java (Android) | Android Studio
Databases: MySQL | Firebase
Tools: Git | Firebase | Power BI | iTextPDF | Google Maps API
Testing: Manual Testing | Functional Testing
Other: REST APIs | Chatbots | Spring Security (Basic)

EDUCATION

Master of Computer Application (MCA)
Techno India University — ***CGPA: 8.37***
2022 – 2024

Bachelor of Science (B.Sc.)
BRSNC (WBSU) — ***CGPA: 9.02***

PROJECT HIGHLIGHTS

Project	Tech Stack	Key Features	Impact
Sales & Inventory App (Finder)	Java, Firebase	GPS Attendance, PDF Bills	Saved **75+** hours/month
FinderManufacturer	Java, React, SQL	Dynamic Catalog, Filters, Cart	**30%** Faster Load Time
DigiKhata Vyapaar Portal	HTML, JS, Java	Sub-User Access, UPI	**+50%** UI Performance
Wedding Planner (PlanOWed)	HTML, CSS, JS, PHP	Budget, Vendors, Seating	**-35%** Planning Time
WhatsApp Clone	Android, Java, Firebase	Secure Messaging, OTP Login	**100%** Secure Message Delivery
Portfolio Website	HTML,CSS, JS	Animated Projects, Contact Form	**100%** Engagement
